- ✓ Node.js
- ✓ Sinatra

TESTING

- ✓ Rspec
- ✓ Jasmine
- ✓ Capybara

SOFT SKILLS

- ✓ Analytical thinking
- ✓ Team work
- ✓ Communication
- ✓ Efficiency

LIAM ROBERTS

SOFTWARE DEVELOPER

PROFILE

E-commerce manager turned software developer, I am a recent graduate of Makers Academy May 2020 skilled in Ruby and JavaScript. I pride myself in attention to detail, problem solving and learning new things which also enables me to help others. I'm determined to work hard towards building a career in software development, where I can use the skills I have acquired and learn new ones.

PROJECTS

ROAD TO DISCOVERY

Agile team project | Makers Academy

React, Node.js, Javascript, Spotify API, Travis CI and Heroku

Features:

- OAuth authentication
- Input a playlist duration length and artist or genre
- Choose songs up to the playlist length based on artist or genre
- Name playlist and save it directly to your spotify account

MAKERS BNB (AIR BNB CLONE)

Agile team project | Makers Academy

Our first Makers Academy team project. Given just under 2 weeks to make a rival to airbnb and learn rails from scratch. We taught ourselves rails and authentication with relational databases in postgresql.

🔗 github.com/Apliz/MakersBnb

BANK TEST

Solo tech test | Makers Academy

Week 10 of Makers Academy, to showcase solo understanding in OOP and TDD. Written in Ruby and tested with Rspec and simplecov.

HOBBIES

Basketball

I enjoy playing basketball and when I go on vacation, some basketball has to be involved! It is a real passion of mine and I love the team work and competitiveness, even when I lose it motivates me to learn and improve so we win next time.

Cycling

I like to keep active, so during lockdown I rediscovered my love of mountain biking. The first time I got back on a bike after many years all the good memories I had of riding through beautiful bike trails with friends came flooding back.

Travelling

I enjoy travelling and experiencing different cultures. I usually learn some of the language of the country I travel to, but then end up forgetting it due to lack of use. So I have decided to keep learning Romanian until I am fluent and hopefully not forget it.

EDUCATION

Makers Academy

Software development, Shoreditch, London | feb 20 - may 20

Makers Academy is a 16 week intensive coding bootcamp focused on teaching the fundamentals of software development with Ruby and JavaScript.

During my time at Makers, I learned:

- principles of OOD and TDD
- How to write clean, reliable and maintainable code
- Pair-programming in the driver navigator style
- How to work in an agile development team with XP values
- Collaboration on GitHub projects with Continuous integration and automated deployment

BTEC GNVQ IT intermediate

Ealing tertiary college | 98 - 99

Grade achieved Merit
